DETAILED ACTION

Allowable Subject Matter

Claims 1-20 are allowed.

The following is an examiner's statement of reasons for allowance:

The majority of Applicant's arguments made in paper dated 10/11/05 centered on distinguishing Jones's teachings as pertaining to bonding pad processes. This is not persuasive because Applicant's own specification pertains explicitly to bonding pad processes along with claims 2 and 10. However, Applicant does point out on the top of page 4 that even in combination, prior art fails to teach an **increase in the rate of fluorine removal**, as required by claim 1. The Examiner finds this argument persuasive and therefore finds this limitation to be allowable. Claim 1 is generic to the other independent claims and therefore claims 9-20 are hereby rejoined and also allowed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
